WELCOME in the World of Childhome

First of all we want to congratulate you on this exciting time !

Here at Childhome, whether you're familiar with CHILDWOOD or CHILDWHEELS, we are a family, and much like your own family, safety is our main concern across the board. As a family company in business for over 27 years, safety for us doesn't stop or start with recalls because long before the establishment of any formal safety commissions or legislations, we've committed to establishing processes and systems that ensure only the safest products reach you. As a team, we have developed an extensive system of quality control checks throughout the production process ringing from product sourcing, production line, and to the final checks before any product leaves our warehouse.

This extensive process ensures that our products meet not only the European regulations, but most importantly satisfy our own commitment to safety and quality. You can find our childhome collection over the entire world.

We kindly inform you that the wood used for our solid wood furniture was treated in an artisanal way. For this reason some imperfections, colour shades, irregularities or non uniformity in materials and colours, are to be considered features of quality and authenticity and not defects. The furniture is treated with special manual finishing that point out colour shades to make this product exclusive and unique.

All furniture in MDF is produced using low Formaldehyde emission MDF E1.

Buying second-hand can save you money, but many items are simply not a bargain if they put your child's safety at risk.

This is why we strongly suggest you not to buy second-hand. Your child's safety is very important. A second-hand cot may have structural or quality problems, even if you can't see any signs of it, which will have its consequences in safety and quality.

After many years Childhome has built up detailed experience and know-how to give the best customer service possible.

Only as a first buyer you can rely on this excellent customer service.

Take a break and take your time to make a choice from our **Childwood** 2013 collection.

We have baby and children furniture, textiles, feeding and safety items for everybody's style and budget. In this way you can be very creative in preparing your exciting event. We are sure you will find your choice and we wish you and your baby a bright future.

Stefan & Nathalie Aerts

and the entire Childhome Team

P.S. Take a look and ask for our Childwheels catalogue 2013 and visit www.childhome.com

MATTRESSES

Mattress Medical

Core:

- upper viscoelastic thermosensible foam (50kg/m³)
- underlayer polyether foam (25kg/m³)

Cover:

- 53% cotton
- 30% polyester
- 17% polyamide stitched with anti-allergic polyester

Finishing: with zipper removable cover

Properties:

- Prevents bedsores (anti-decubitus).
- Under the effect of body heat, this foam follows the shapes of the body perfectly the hardness of the mattress is made in a way to prevent the flatness of the head.
- An optimal distribution of the pressures and a perfect position of the head and shoulders, so that breathing is not blocked.
- Used in the family, medical & care sector.
- Viscoelastic foam is perfectly supported by a polyether which is highly resistant and absorbs moisture.
- A carbon wire in the cover fabric removes static electricity.
- Anti-dust, ideal for asthma patients.

M120M **Mattress Medical**
60 x 120 cm (11 cm)

M140M **Mattress Medical**
70 x 140 cm (11 cm)

KOKOS

Mattress Kokos

Core:

- upper ventilating coconut layer
- underlayer polyether foam

Cover:

- 53% cotton
- 30% polyester
- 17% polyamide stitched with anti-allergic polyester

Finishing: with zipper removable cover

Properties:

A coconut is a natural product with useful properties.

- An exceptional elasticity.
- A good distribution of the pressures.
- A good ventilation, so that moisture is evacuated consequently: no moulds.
- The coconut is supported perfectly by a polyether with a large capacitance and a good absorption of moisture.
- The mattress has a hard & soft side.

M120KO **Mattress Kokos**
60 x 120 cm (11 cm)

M140KO **Mattress Kokos**
70 x 140 cm (11 cm)

Polyether economy

Polyether removable

Mattress Polyether Economy

Core:

- high-quality polyether foam (20kg/m³)

Cover:

- 65% cotton
- 35% polyester

Finishing: small ribbon, no washable cover

Properties:

- The polyether has the advantage of firmness.
- Impact strength and comfort are good.

Mattress Polyether Removable

Core:

- first-quality polyether foam (25kg/m³)

Cover:

- 53% cotton
- 30% polyester
- 17% polyamide Stretch Ecru stitched with anti-allergic polyester

Finishing: Removable cover is washable at 40°C

Properties:

- Polyether has the quality to be solid
- Elastic and retaining its shape
- The cover has an anti-mite treatment, which makes that mites, microbes and moulds do not survive

M75 **Mattress Polyether Economy**
75 x 95 cm (3 cm) For use in playpen

M90 **Mattress Polyether Economy**
42 x 92 cm (5 cm) For use in cradle

M120 **Mattress Polyether Economy**
60 x 120 cm (9 cm)

M75R **Mattress Polyether Economy**
75 x 95 cm (7 cm) For use in playpen

M90R **Mattress Polyether Economy**
42 x 92 cm (7 cm) For use in cradle

Fire Retardant

Mattress Fire Retardant / Cold Foam

Core:

- Cold foam CMHR (40kg/m³)

Cover:

- Anti-allergic polyurethane green

Finishing: with zipper removable cover

Properties:

- The ticking is made bi-elastic polyurethane coating
- The ticking responds to an optimal pressure division and small friction resistance
- Waterproof, breathing, anti-microbial, hypo-allergen
- Washable at 95°C
- Core and ticking are anti-fire CRIB5 (conform EN-597)

M120FR **Mattress Fire Retardant / Cold Foam**
60 x 120 cm (11 cm)

INSPIRATION STORE

Visit our

Childhome Inspiration Store

The Childhome team invites you in their modern showroom of 1000 m2.

The Inspiration Store is a lifelike alternative to our website and Childhome catalogue 2013.

You'll be guided through the showroom so that you, as a parent or a future parent, will get informed and inspired in peace by our complete range and you can start dreaming about your future baby room.

Childwood stands for a total concept in the world of baby and children's rooms. Childwheels stands for mobility, contemporary and user-friendly.

Visit us and enjoy the atmosphere, cosiness, colour pallet and the quality of our products. You can order your choice from our collection to your favorite baby store/our dealer.

We look forward to your visit,
The Childhome team

Visit www.chis.be for more information.

Child home Inspiration Store

Open on **Friday and Saturday** from 10.00 a.m. till 6.00 p.m.

Please always look on our website for opening hours.

We have a lot of parking space and are easily accessible.
